

# Life Skills Program

*Learn today, lead tomorrow.*

- Life Skills program is basically tailored to promote certain learning, social, and working skills empowering learners with the knowledge and skills they need to lead confident and independent lives in their community.
  
- Life Skills program is intended to help learners promote many skills including:
  - developing confidence and responsibility
  - developing a sense of citizenship
  - developing the skill of leadership
  - developing the sense of self-awareness
  - making informed decisions
  - solving problems
  - promoting creative and critical thinking
  - communicating effectively
  - empathizing with others
  - coping with challenges
  - managing their lives in a healthy and productive manner

So, Life Skills program enhances the four pillars of education.
